

How to draw isosurface with xcrysden

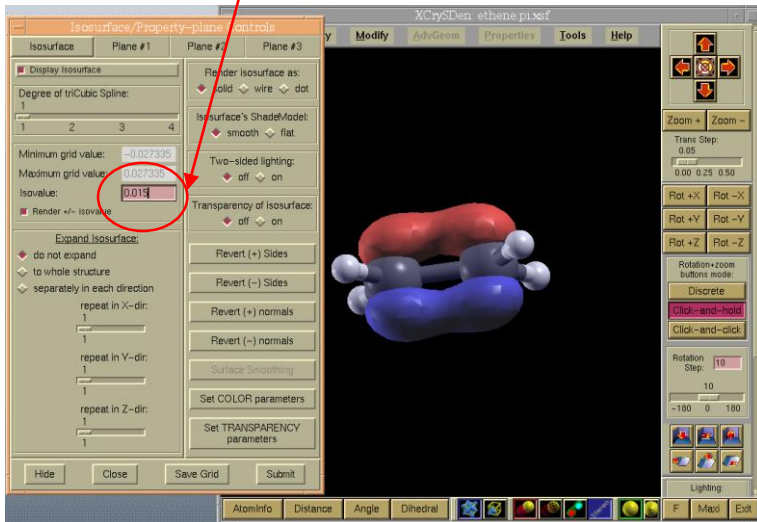

Use tool command

Then, a new window will open

Input an appropriate value

Click OK

Important!!

There is a bug in the new version QE6.

For the calculation of Born effective charge,

Please use QE5. You can build it following

<http://osuginoissp.wixsite.com/mysite/a-install-quantum-esspresso>

(Replace qe-6.1 with qe-5.4).

Sorry for inconvenience.
